

Beccy Garlett is a proud Aboriginal woman from the Southwest of WA.

Inspired from stories of my growing up and stories I was told from when I was Child. Warlitj Productions recreated them into fresh, unique, poetry and interactive story telling, using my experience as an actor, theatre workshop facilitator, forum theatre workshop facilitator and mentoring roles. Exciting for children ages ranging from 4 to 12. So far with Primary aged children the feedback has been a great success and overwhelming.

Learning about my beautiful Culture, which is also one of the oldest living Cultures in the world. I had the amazing opportunity to learn mostly through theatre and art networking. I really want to share my culture and my leanings the best way I know how.
